Sunset

INSTRUCTION MANUAL

how to connect the modules

CONTENT

Start by unpacking everything carefully. Make sure to cover the floor to prevent any damage or scratching (you can use the cardboard box for this).

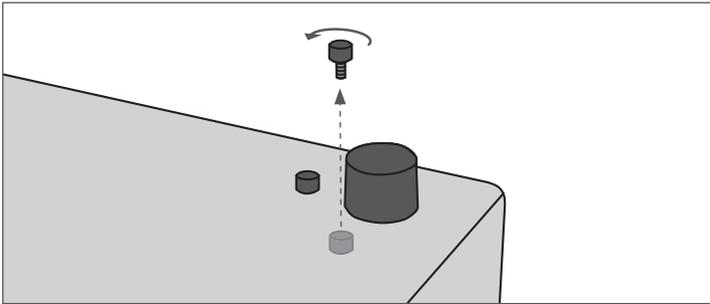

2x connector

Diphano cannot be held responsible if the assembly instructions are not followed properly.

1

LOOSEN SCREWS

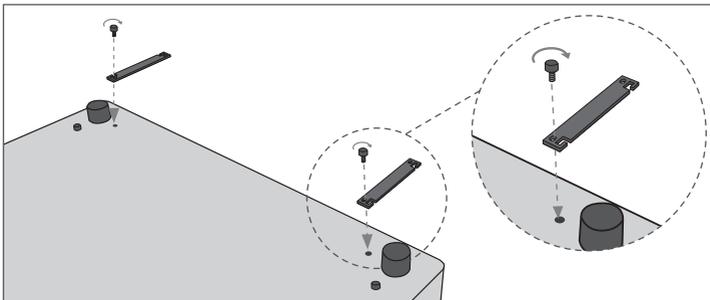

The plastic screws are standard delivered attached on the module. Unscrew them on the first module to get started.

2

ATTACH CONNECTORS

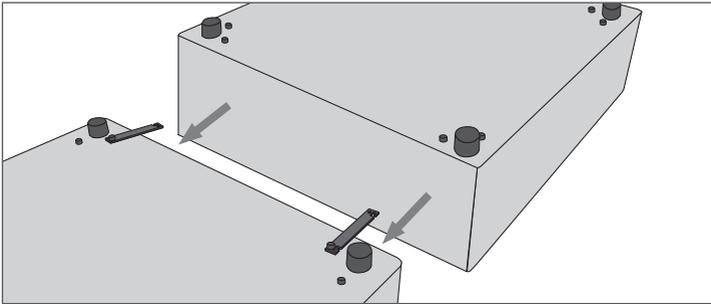

Attach one side of the connector onto the hole on the side of the furniture. Repeat the same action for the second connector. Do not fix the screws too tight, so you can still move the connector back and forth.

3

PLACE SECOND MODULE

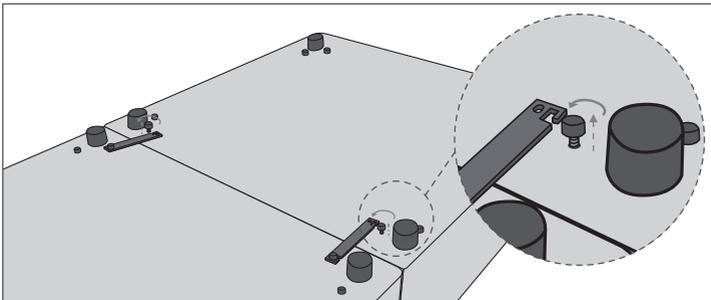

Place the second module next to the first module.

4

LOOSEN SCREWS

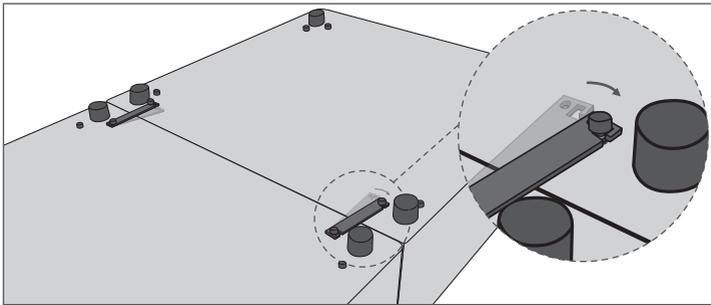

Loosen the 2 screws on the second module a little so that you have enough space to clip the connector.

5

ATTACH TO SECOND MODULE

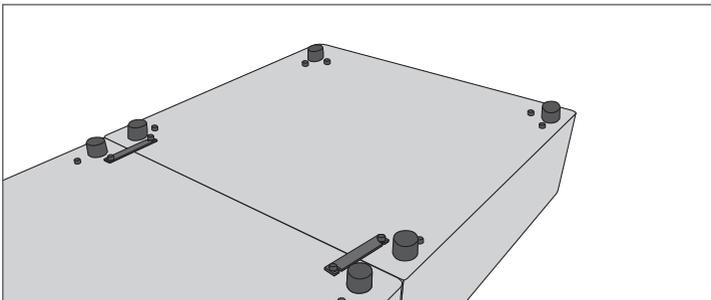

Attach the other side of both connectors onto the second module.
Then tighten all screws.

6

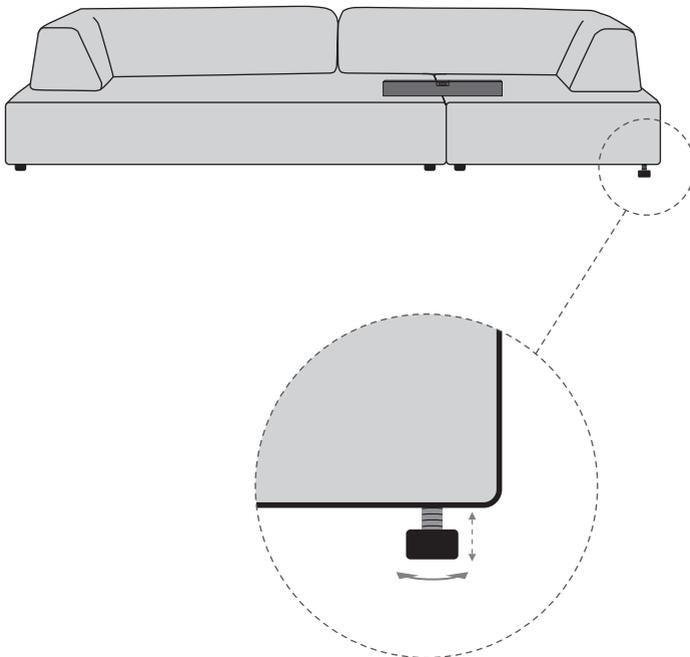

TURN MODULES

Now your modules are connected. Tilt the furniture back to its normal position with minimum 4 persons.

how to adjust the feet

Check with a spirit level if the modules are placed level. If not, (un)screw the adjustable feet until your concept is completely level. This ensures each module can be leveled so it fits perfectly to the next module.

maintenance & care

FABRICS

Simply brush away loose dirt. Spray on a cleaning solution of water and mild soap. Use a soft bristle brush to clean and allow cleaning solution to soak into the fabric. Rinse thoroughly until all soap residue is removed and allow to air-dry.
